

HEDGEBOOK FOR AUDITORS

Hedgebook

Confidence in the numbers

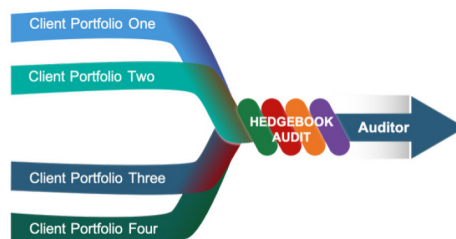

75% of top 30 audit firms in the UK use Hedgebook.

Hedgebook independently values financial instruments during the audit process. It is fast, intuitive, and most importantly, independent. Hedgebook Audit puts cost-effective, independent valuation and reporting tools directly in the hands of your audit team. What's more, its secure, cloud-based solution gives 100% accurate, end-of-day valuations you can trust.

Accurate, independent valuations... fast.

Hedgebook quickly and accurately values a wide range of financial instruments including FX forwards, options, and interest rate swaps. As a cloud-based offering it requires no installation of software and set-up is minimal.

Hedgebook streamlines the process of auditing financial derivatives whilst ensuring necessary rigour and accounting standards are applied. Its 100% independent valuations use reputable data sources, to remove your reliance on banks or other third parties. Long dated instruments, such as interest rate swaps, are always available for valuation from one year-end to the next.

Streamlined Valuation
Process

Streamline Valuations

Indispensable tools - for Auditors

Compliance & Integrity

Simplify compliance with IFRS and US GAAP - generate 100% independent valuations at the press of a button. You know you're compliant.

Cloud Accessibility

Whether you are working in the office or working remotely, Hedgebook Audit is always available, always secure and always adding value.

Intuitive Simplicity

Hedgebook offers fast implementation with an easy user interface - you are up and running, delivering exponential value from day one.

Integrated Market Data

Hedgebook uses daily feeds from reputable data sources to calculate independent fair value - individually or as a portfolio - it's both fast and easy.

Key Features
