

HEDGEBOOK FOR CURRENCY BROKERS

More than vanilla

An exceptional experience with wide ranging options.

Hedgebook helps you to make more of a difference. You get to create the kind of shared client experience you need to build a highly valued relationship on a one-to-one basis. You get to add exponential value for minimal outlay – in a white labelled environment that looks (and works) as you do.

Designed to work for you

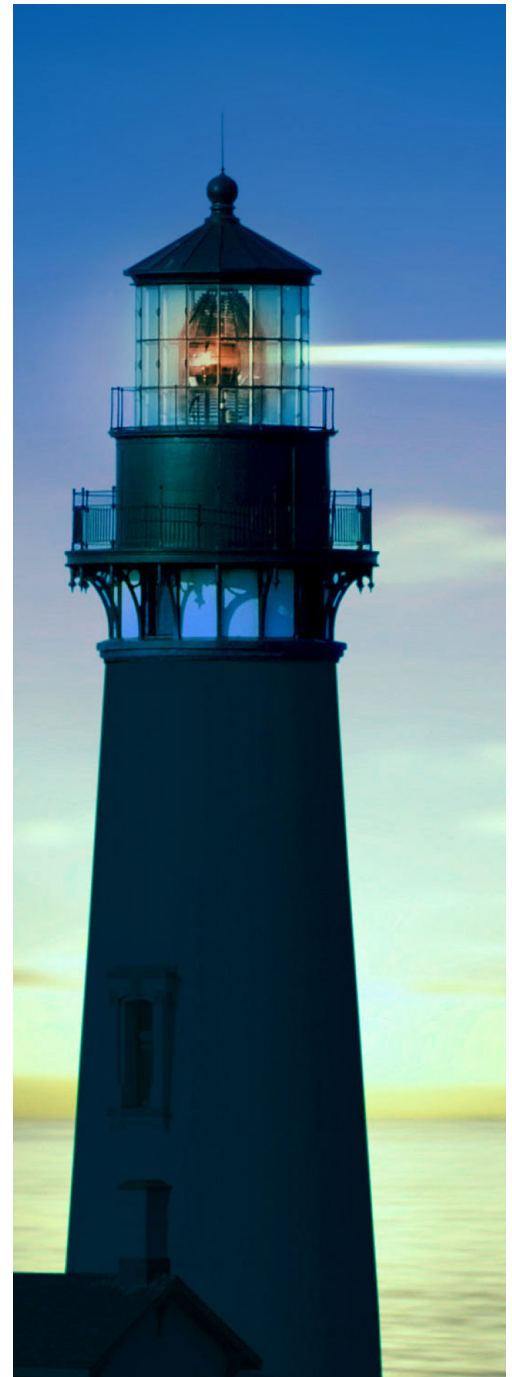

Hedgebook has been designed with the needs of currency brokers in mind including an API integration directly into your existing environment.

Using Hedgebook's white labelled solution can deliver up to a 20% increase in hedging activity with a sustained increase in deal flow. It's not only easy to use – Hedgebook can be up and running in just 24 hours.

Extensive reporting and tracking is included, to identify actionable insights that really make a difference to your clients.

**Streamlined
Value Chain**

Delivering mutual value

Effortlessly increase client activity

Share One View

Reports your clients understand, in a view you can both share in real time. It makes decision making faster.

Model Scenarios

Hedgebook's FX Exposure tool lets you create visually engaging models of future scenarios around an order – in just a couple of clicks.

Build Confidence

Build client confidence through better compliance and FX risk management – creates a highly trusted relationship.

Be Proactive

Hedgebook raises timely alerts so you never miss an opportunity – even across the most extensive portfolios you stay on the front foot.

About Hedgebook

Hedgebook builds simple, yet highly effective, cloud-based treasury management software tools. It enables real-time collaboration between corporates and the banks, brokers, auditors, and treasury advisors that support them. Used by companies the world over, Hedgebook is leading the evolution to effective and secure, anytime, anywhere currency management.
