

# HEDGEBOOK FOR CORPORATES

## Make better decisions

Manage currency, commodity and interest rate hedging like an expert.

Hedgebook's cost-effective, easy-to-use SaaS treasury solution helps businesses like yours to: manage financial risk, streamline compliance reporting, and protect the bottom line. It makes recording and valuing FX forwards and options, commodities and interest rate swaps, really easy. That's why 99% of Hedgebook customers never stop using it.

## The best hedging decision you'll make

Integrate Hedgebook software into your existing systems for real time updates, creating accurate scenarios and reporting in just a couple of clicks. Replaces spreadsheets and enhances standard treasury management processes – you make better decisions, faster.

Simple and intuitive, Hedgebook streamlines collaboration between you and your bank or currency broker. At the same time, it eases the burden of management and compliance reporting – including accurate, independent financial instrument valuations.

Real-time  
Visibility

# Work smarter, not harder

Spend less time processing data, more time adding real value.

## Act with Confidence

No more manual entry errors, version management nightmares and single-person IP issues – you have one shared point of truth.

## Mitigate Risk

Enterprise grade treasury management solution and valuations functionality – at a fraction of the price at a fraction of the price you'd expect.

## Operational Efficiency

Spend less time processing data and more time driving value - dramatically decrease admin time while increasing your ROI.

## Better Business Results

Intuitive tools do the complex calculations for you, delivering indispensable insights with reporting your board will love.

## Key Features
